## One for the Kids & the Crafters

(taken from [www.gingerbreadsnowflakes.com](http://www.gingerbreadsnowflakes.com))

### What You'll need

- Dried, colourful autumn leaves
- PVA glue
- Brush
- Old Jar

### METHOD:

1) Collect, dry and press the leaves, drying could take up to a week but its worth it!

2) Paint glue onto the sides of the jar and place your dry leaves onto it until the entire jar is covered.

3) Paint over the leaves again with glue and allow to dry. Bare in mind that layered leaves wont let as much light through, light leaves work best for that and darker ones for effect!

4) Place a candle in the jar and enjoy the warm glow.
